## About the 5th Photo Nature International Contest 2021

Photo Nature International is a competition organized by the Jauense Association of Environment and Culture (AJAC), based in the city of Jaú, State of São Paulo, Brazil.

It was decided in this 5th edition to maintain a nature section and propose two other sections, called Open Color and Life, receiving color or black and white photos. The organization of this competition sought to reaffirm the patronage of the Federation Internationale de L'Art Photographique (FIAP) and the recognition of the Photography Society of America (PSA) and the International Association of Arts Photographers (IAAP). This latter association, also responsible through the web platform to receive and process the different stages of the contest. We also have the recognition and support of the Brazilian Confederation of Photography (CONFOTO).

The contest was opened from the end of June 2021 and ended on September 15, 2021. Candidates were able to participate with up to 12 photos and were evaluated by a panel of judges with international experience. 151 awards were offered, in addition to special awards to the 20 best Brazilian authors. Also, the 1 best photoclub in general and the 1 best Brazilian photoclub were awarded diplomas. The peculiarity of this contest is that a participant can have a maximum of one prize per section. This guarantees the spreading and distribution of prizes among the participants.

Due to the current moment of COVID-19's Pandemic, we had an event with online transmission and we will also have an exhibition with printed photos for the year 2022 to guarantee the unrestricted access of Jauense citizens in places of great public as in Jaú Shopping Center and should visit some schools in AJAC's educational and cultural projects in the educational environment.

  
Juliano Meneghelo, chairman

  
Paulo Guerra, co-organizer

# AJAC

Associação Jauense de Ambiente e Cultura

The Associação Jauense de Ambiente e Cultura was founded in March 2017 in order to act in defense of the environment and the cultural heritage of Jaú, in addition to stimulating and agglutinating those who practice photography as art or leisure.

Even though it is a new institution, the performance of its members with the mentioned segments goes back to an older period, about a decade before its formal constitution.

As an extension of its performance, this project is characterized by necessary guidelines, as well as by the establishment of fundamental partnerships. Thus, the defense of campaigns such as the preservation of Marambaia, a region located at the mouth of the Jaú river that encompasses the borders of the territories of Jaú, Itapuú and Bariri and the partnership and support to RPPN Amadeu Botelho, in the city of Jaú.

AJAC, as it has been called since its implementation, is affiliated with the Brazilian Confederation of Photography (CONFOTO), with several of its founders working in the field of photography, including representing the city in several national and international competitions.

In this sense, AJAC supports the implementation of a photographic contest that can sustain the defense of nature photography, without forgetting the other segments and categories of this artistic expression.

# OPENING AND PRESENTATION OF THE RESULTS

More than 100 people attended this opening.  
Thanks to Clovis Marchesin of Fototech for technical and logistical support.
